# Sharing Thoughts with Parents

Narang's Academy grew by number, quality and results each year. We proudly claim that no one could make education as interesting as we could. Our strength is that we do not discriminate between the ranker and non ranker because we believe that hard work can create a genius. The number of questions that we solve in the classroom provides every student with the arms and ammunition to fight his examinations.

Every journey starts with a step. Narang's Academy started its journey 31 years ago. We took our first step of imparting education with a handful of apprehensive students who are today posted on the professional chairs of the society as successful CA, CS, MBA, Doctors & Engineers.

Narang's Academy stands tall amongst all because we follow the four tier system of education.

**SCHOOL + CLASS + PARENT + STUDENT = SUCCESS**

Our team of dedicated teachers are qualified and experienced in their respective subjects. They are continuously monitored to ensure that they bring the best out of every student....because for us every student is a challenge.

With the changing times student counselling has taken a centre stage which is done as and when required for the overall development of the child. We are the only class in Vasai which finds time for counselling, motivating and understanding the needs of every student whether weak average or a scholar.

Mr. & Mrs. Narang are not only Managers but actively participate into teaching and counselling. Students consider them as an extended Academic Family. What makes Narang's special is its small batches and experienced faculty which promises you Quality teaching and learning which has led to 100% Results consistently year after year.

Director : Prof. Ashwin Narang

Principal : Mrs. Simran Narang
